“Wedding photography that tells a complete story”

Fresh Look Images is a family of professional photographers. We believe that our photography has a fresh, unique style all of its own.

We shoot in both styles of wedding photography with one being un-posed documentary (wedding Photojournalism) and other artistic portraiture. The blending of these two distinct styles creates a beautiful mix of images that truly tells a complete story all of its own.

Because every bride and groom’s needs are different, Fresh Look Images has come up with a number of ways for couples to obtain our photographic services. We have three packages available that will save you quite a bit of money if you find what you are looking for in them. You can also go with our custom package “Flat rate” as a starting point and add on anything wish from the A La Carte items.

Because we shoot all digital we generally take unlimited amount of photographs with-in the hours you have contacted us for. These images include color, b&w, sepia tone, colorized and special effect. All of our packages include a CD of all digital negatives (high resolution images).
